LOT 37 - 1971-S Eisenhower Silver Dollar MS66 ICG Certified

Description

The 1971-S Eisenhower Silver Dollar marks a significant entry in the Eisenhower series, celebrating its launch with a production at the distinguished San Francisco Mint, known for its proof and special releases. With a total mintage of 6,868,530, this issue is more abundant compared to its proof counterpart, yet it remains highly desirable for its 40% silver content amidst the clamor of circulating clad coins. Certified by ICG at the impressive grade of MS66, this coin stands out with its superb mint-state luster and precise strike, elements often challenging to find due to the broad fields of the large dollar format. For collectors focusing on modern type sets and high-grade registry collections, this particular date and mint serve as a cornerstone of numismatic achievement, reflecting both historical significance and exceptional craftsmanship from the era. The coin's appeal is further solidified by its originality and unblemished surfaces, enhancing its allure to discerning Eisenhower dollar enthusiasts.
