LOT 31 - 1964 U.S. Mint Proof Set with Kennedy Half Dollar and Lincoln Cent

Description

The 1964 U.S. Mint Proof Set is a significant offering for collectors, featuring the iconic Kennedy Half Dollar, which was produced in a mintage of 3,950,762, making it one of the most widely collected coins in American numismatics. This set also includes the Lincoln Cent, notable for its design by Victor David Brenner, which has remained a staple in American coinage since its introduction in 1909. The San Francisco Mint (S) produced these proof coins with a meticulous process that ensures a mirror-like finish and sharp details, making them highly sought after for their aesthetic appeal and historical context, particularly as they mark the first year of the Kennedy Half Dollar following President Kennedy's assassination. In terms of technical quality, the coins in this set exhibit exceptional luster and surface preservation, with many examples achieving high grades from grading services like PCGS and NGC. The demand for this proof set is bolstered by its significance in commemorating a pivotal moment in U.S. history, as well as its role in the broader context of the 1960s economic landscape. Collectors often seek to complete their sets with this proof set, as it represents a key milestone in American coinage, making it a valuable addition for both novice and seasoned numismatists alike.
