**LOT 20 - 2006 American Silver Eagle MS69 First Strikes NGC Graded**

**Description**

The 2006 American Silver Eagle, graded MS69 by NGC and designated as a First Strike, is a remarkable example from a series that has become a staple in modern numismatics. With a mintage of 10,000,000 coins, this issue is considered common within the series; however, the MS69 grade places it in the upper echelon of quality, making it a desirable piece for collectors seeking high-grade examples. The design, created by Adolph A. Weinman, features the iconic Walking Liberty motif, which has captivated collectors since its introduction in 1916. This coin exhibits exceptional luster and surface preservation, with the cartwheel effect clearly visible, enhancing its eye appeal. As a First Strike, it signifies that this coin was among the first produced after its release, adding an extra layer of significance for collectors focused on early production examples. The American Silver Eagle series is not only a favorite among bullion investors but also holds a prominent place in type collections, making this MS69 specimen a valuable addition for both seasoned numismatists and those looking to complete their sets.
