LOT 22 - 1854-O Seated Liberty Half Dollar

Description

The 1854-O Seated Liberty Half Dollar, with a mintage of just 30,000 pieces, is a notable semi-key date within the series, making it a coveted addition for serious collectors. Struck at the New Orleans Mint, this coin reflects the era's economic challenges, including the impacts of the California Gold Rush and the Civil War, which influenced silver production and coin availability. This particular example exhibits strong detail and luster, characteristic of the O-mint coins, which are often noted for their striking quality and surface preservation issues. As one of the rarer dates in the Seated Liberty series, it holds significant collector interest, particularly for those focused on completing their sets or seeking high-quality examples of this historic design. The combination of its limited mintage, historical context, and aesthetic appeal makes the 1854-O a standout piece for any advanced numismatic collection.
