

**Sale Name:** Currency, Barbers, Silver Disney Rounds, Morgans, Type Coins Saturday Night Auction October 4th

**LOT 13 - 1880 S Morgan Silver Dollar**

**Description**

The 1880 Morgan Silver Dollar, minted at the Philadelphia Mint, boasts a mintage of 8,200,000 coins, making it a common date within the series. However, this particular example stands out as a Choice specimen, showcasing the exquisite artistry of George T. Morgan, whose iconic design features Liberty on the obverse and a majestic eagle on the reverse. While not a key date, the 1880 Morgan is highly sought after for its striking luster and well-defined details, which are often compromised in lesser examples. This coin's appeal is further enhanced by its historical context, as it was produced during a period of economic recovery following the Panic of 1873, reflecting the nation's growing confidence in silver coinage. Collectors will appreciate the coin's excellent surface preservation and cartwheel luster, making it a valuable addition for both type collectors and Morgan Dollar enthusiasts alike.
