LOT 10 - 1884 S Morgan Silver Dollar

Description

The 1884 Morgan Silver Dollar, struck at the Philadelphia Mint, boasts a mintage of 17,912,000, making it a common date within the series; however, this example stands out as an About Uncirculated piece, showcasing the intricate details of the iconic eagle design on the reverse. Designed by George T. Morgan, this coin reflects the artistry of the late 19th century, a period marked by economic expansion and the establishment of the silver dollar as a staple in American commerce. While the overall mintage is high, the survival rate of high-grade examples is notably lower, making this coin a desirable addition for collectors seeking quality over quantity. The surfaces exhibit a brilliant luster with minimal contact marks, enhancing its eye appeal and desirability in the market. As a key component of any Morgan Dollar collection, this piece not only represents a significant era in U.S. history but also serves as a testament to the craftsmanship of American coinage.
